Associate (6-10 employees)

Experience and knowledge gained from growing up  
around an electrical distributorship and working eight  
years in distributor sales led Joe Bertsch, Sr. to form Joe

Bertsch Electrical Sales Company in 1969. Starting the  
business with three lines, he covered the two state  
territory as a one man show. From those lean days, the

agency has grown, representing several leading  
manufacturers.

Headquartered in Cedar Rapids, IA with offices in Des  
Moines, IA, Omaha, and Lincoln, NE, we service  
Nebraska, Iowa and Rock Island County of Illinois. We  
are a fully computerized (with on-line capabilities) non-  
warehousing manufacturer's representative.

Are association affiliations include NEMRA, NEMRA  
Computer Users Group and BICSI.

Associate (over 10 employees)  
Merchants Bonding Company was founded in 1933 in Des Moines, Iowa. We specialize only in the writing of surety bonds. Merchants is licensed in 50 states and we maintain fully staffed underwriting offices in Austin, Texas and our home office in Des Moines. Business is written 262-9511 through independent insurance agencies representing our company. The company's record is one of steady growth while maintaining a loss ratio far better than the industry average. Approximately 80% of our premium volume is from contract surety. Merchants has a bonding capacity of \$15 million per contract and we can write much larger bonds through our associated companies.

Supplier (\$6 mil. - \$20 mil.)

The Trane Company is a worldwide leading supplier of indoor comfort systems, with current annual sales approaching \$4 billion. Its products include modern,

efficient equipment for residential, commercial, institutional, industrial and process applications. Trane is one of the four businesses of the American Standard Companies.

Known for world class quality, Trane provides reliable equipment and controls needed for today's air conditioning systems. In addition, Trane offers assistance with start-up, service and global training of the customer. Contractor \$1 mil. to \$3 mil.

In Trane factories, Demand Flow Manufacturing\* techniques are used to assure the integrity and efficiency of production and on-time shipments.

A true global company, Trane has offices, service

operations, joint ventures and manufacturing facilities around the world. All are networked to provide uniform local support capabilities such as engineering expertise, application assistance, service and parts. In addition, Trane offices offer the benefits that come with a working knowledge of local business practices, building codes, languages and currencies.

Supplier (less than \$6 mil.)

Trillium Construction Services is an employment service specializing in staffing, training, and testing. Trillium was started in 1984 with one office in Battle Creek, Michigan. Our employment service has grown steadily to its current level of 37 offices servicing 500 customers and 3,500 employees weekly. Trillium's current service areas include Iowa, Illinois, Wisconsin, Tennessee, Virginia, Florida, Georgia, and Michigan, with corporate headquarters located in Kalamazoo, Michigan.

From small businesses to Fortune 100 companies, our Carson business philosophy remains the same - to achieve excellence through high quality employees with an uncompromising level of service. Trillium believes in honesty, integrity, and a simple straightforward philosophy where value to our customers and employees is our primary goal.

Trillium follows a partnership approach providing a mutually profitable business relationship with both our customers and employees. Combining experience with a \$500,000

customer-focused vision to pursue innovative ways of customizing our services, we believe in being a part of every community we service, to remain both adaptive and responsive to the needs of each unique market.

Contractor \$20 mil. to \$50 mil.

Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or

agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples. [www.carlanelsonco.com](http://www.carlanelsonco.com)  
Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples.  
www.carlnelsonco.com

Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

Contractor \$20 mil. to \$50 mil.  
Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or

agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples.  
Www.carlanelsonco.com  
Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

Contractor \$6 mil. to \$10 mil.

Proctor Mechanical takes pride in their design/build concept. They have the ability to design the projects as well as build them. They have the capability to do this in the following areas: plumbing, heating, air conditioning, ventilation, and process and specialty piping.

By designing and building the project Proctor Mechanical has a better idea of what the project entails which helps them to create an accurate schedule and cut costs, keeping the project on time and on budget.

Proctor Mechanical provides contract services in the following areas: underground utilities, plumbing piping, heating piping, HVAC systems, piping, sheet metal, controls, and extranets.

Our clients enjoy the convenience of on-line access to project status reports. You can forget about wasting time

going to www.proctor-mech.com/xxxx (project number) and entering the project's unique user name and password. There you can access reports for quick review or print.

Des Moines Plumbing and Heating is a service division of Proctor Mechanical that provides the following services: after hours emergency service, backflow installation and testing, water and sewer line replacement, stop boxes, heating, cooling and refrigeration, and commercial and residential installation and repair.

tseibert@carlnelsonco.com  
www.carlnelsonco.com  
Contractor \$20 mil. to \$50 mil.

Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples.

www.carlnelsonco.com

Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright

technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

tseibert@carlanelsonco.com

www.carlanelsonco.com  
Contractor \$20 mil. to \$50 mil.  
Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples.

www.carlanelsonco.com  
Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.
