Hydronic Energy, Inc. is a manufacturers representative serving the hydronic heating and piping markets in Iowa, Nebraska, and Western Illinois. The companies represented by Hydronic manufacture items such as pumps, heat exchangers, tanks, water heaters, boilers, cooling towers, coils, flow control valves, acid waste pipe and fittings, pre-insulated piping systems, radiant floor heat, and various accessory items. These products are distributed to mechanical contractors, universities, school districts, industrial businesses, process users, and plumbing-heating wholesalers. We work closely on new design projects with consulting mechanical engineers, architect-engineering firms, and university and school maintenance departments, as well as with industrial users on new construction and remodeling.

Experience and knowledge gained from growing up around an electrical distributorship and working eight years in distributor sales led Joe Bertsch, Sr. to form Joe Bertsch Electrical Sales Company in 1969. Starting the business with three lines, he covered the two state territory as a one man show. From those lean days, the agency has grown, representing several leading manufacturers.
Headquartered in Cedar Rapids, IA with offices in Des Moines, IA, Omaha, and Lincoln, NE, we service Nebraska, Iowa and Rock Island County of Illinois. We are a fully computerized (with on-line capabilities) non-warehousing manufacturer's representative.
Are association affiliations include NEMRA, NEMRA Computer Users Group and BICSI.

Merchants Bonding Company was founded in 1933 in
Des Moines, Iowa. We specialize only in the writing of
surety bonds. Merchants is licensed in 50 states and we
maintain fully staffed underwriting offices in Austin, Texas
and our home office in Des Moines. Business is written
through independent insurance agencies representing
our company.
The company's record is one of steady growth while
maintaining a loss ratio far better than the industry average.
Approximately 80% of our premium volume is from
contract surety. Merchants has a bonding capacity of \$15
million per contract and we can write much larger bonds
through our associated companies.

The Trane Company is a worldwide leading supplier of
indoor comfort systems, with current annual sales
approaching \$4 billion. Its products include modern,
efficient equipment for residential, commercial,
institutional, industrial and process applications. Trane is
one of the four businesses of the American Standard
Companies.

Known for world class quality, Trane provides reliable
equipment and controls needed for today's air
conditioning systems. In addition, Trane offers assistance
with start-up, service and global training of the customer.
In Trane factories, Demand Flow Manufacturing*

techniques are used to assure the integrity and efficiency
of production and on-time shipments.

A true global company, Trane has offices, service
operations, joint ventures and manufacturing facilities
around the world. All are networked to provide uniform
local support capabilities such as engineering expertise,
application assistance, service and parts. In addition,
Trane offices offer the benefits that come with a working
knowledge of local business practices, building codes,
languages and currencies.

Contractor \$20 mil. to \$50 mil.
Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples.

www.carlnelsonco.com

Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or agriculture industrial plants. Our healthcare experience

focuses on rural or critical access hospitals and clinics. Please see our website for examples.

www.carlanelsonco.com

Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags

conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of

capital improvement projects include the construction of

scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of

technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.

Contractor \$20 mil. to \$50 mil.
Carl A. Nelson & Company, established in 1913, handles capital projects up to \$35 million using design-build, general contracting or construction management delivery methods. Carl A. Nelson & Company is licensed to work across the United States and Canada. We focus on both healthcare projects and industrial projects. The majority of our industrial projects deal with food processing or agriculture industrial plants. Our healthcare experience focuses on rural or critical access hospitals and clinics. Please see our website for examples.

Carl A Nelson & Company founded Nelson Plant Services in 2002. Nelson Plant Services focus is on our industrial clients' smaller projects(\$10,000-\$300,000) and routine maintenance. The crews consist of millwright technicians, pump mechanics, welders and industrial maintenance mechanics. Nelson Plant Services specializes preventative maintenance, pump & conveyor repair and capital improvements. Nelson Plant crews have an expertise in maintaining and repairing drags conveyors, screw conveyors, belt conveyors and bucket elevators, as well as, maintaining and repairing pump and other major production equipment. Some examples of capital improvement projects include the construction of scales, building additions and reorganizing production lines by relocating or installing new equipment and systems.
